

2025 *community* IMPACT REPORT

Advantage One has always believed that a credit union should be more than a financial institution—it should be a genuine partner in the community it serves. Rooted in the Downriver area for decades, we've built our mission around helping local families, small businesses, and neighborhoods thrive. Our members are our neighbors, and every decision we make is grounded in the idea that when the community succeeds, we all succeed together.

This year, we've been intentional about directing our resources toward programs and initiatives that make a meaningful difference close to home. From supporting youth organizations and school programs to contributing to local nonprofits addressing food insecurity, financial education, and community wellness, our investments are designed to strengthen the Downriver region in lasting ways. Every dollar we put back into the community reflects our commitment to building a more resilient, supportive, and connected place to live.

Our employees play a huge role in bringing this mission to life. Whether they're volunteering at local events, mentoring students, organizing donation drives, or rolling up their sleeves to help with neighborhood cleanups, their dedication extends far beyond the walls of our branches. Their passion for service is one of Advantage One's greatest strengths, and it's a big part of why our impact continues to grow year after year.
